

MHI unveils three proposals for FAME-III budget

The Ministry of Heavy Industries (MHI) has proposed three FAME 3.0 options to boost EV adoption, with budgets from ₹126 billion to over ₹300 billion, including alternative fuels. The Finance Ministry favours a ₹100 billion budget due to existing incentives. The scheme aims to improve public transport and charging, with the industry urging higher funding for EV growth.

New electronics cluster in Mysuru to boost semiconductor manufacture

The Karnataka government has announced investments from seven tech companies in a new electronics cluster in Mysuru, covering 95.3 hectares (235.5 acres). Key players include Kaynes Technology, Gopalan Aerospace, and Krypton India Solutions, with a total project cost of nearly ₹2.45 billion, including about ₹1.22 billion from MeitY. The cluster aims to boost semiconductor manufacturing, with applications under review for production-linked incentives.

LeePra chooses Delvitech's 3D AI AOI system

Indian EMS company LeePra Technologies has partnered with Swiss AI consultant Delvitech to implement the Aton 3D AI-based automated optical inspection system in its Mysuru

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events		
Event, Date and Venue	Topics	Contact for details
19th Everything About Water Expo 2024 September 10-12, 2024 IICC, New Delhi	South Asia's largest water and wastewater event showcasing the latest technologies and solutions in water and waste management, endorsed by the Ministry of Jalshakti in India.	Website: https://www.eawaterexpo.com
Open Source India 2024 October 23-24, 2024 Bengaluru	Open Source For You magazine, in partnership with India's open source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in
EFY Expo Chennai December 5-7, 2024 Chennai Trade Centre, Chennai	Major tech conference focusing on electronics, IoT, and AI. Simplifies new product development and manufacturing challenges in India. Offers assistance from leading suppliers, even for small batch productions.	Website: https://www.efyexpo.com/delhi-ncr/
India Electronics Week February 26-28, 2025 KTPO Expo Center, Whitefield, Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
EFY Expo Pune May 15-17, 2025 Auto Cluster Exhibition Centre, Pimpri, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE/

and Vadodara facilities. The Aton system will be used across various aspects of LeePra's manufacturing, such as electronics (PCBs and components), automotive parts, aerospace components, medical devices, and consumer goods.

LG planning IPO in India

LG Electronics is considering an IPO for its Indian subsidiary, LG Electronics India Pvt Ltd, potentially raising \$500 million. The company has consulted with international banks and legal firms about listing LGEIL in India. The move aims to capitalise on solid sales in its home appliance division. This follows Hyundai Motor's recent IPO filing, signalling increased market activity.

Lava to separate production facility for PLI goals

Lava plans to separate its production unit from the main company to attract other handset brands and meet its production-linked incentive (PLI) targets for smartphones. Despite struggling to meet previous targets, Lava aims to boost production

by ₹5 billion annually and enhance local value addition. The company also awaits details on the new PLI scheme's financial support in the upcoming 2024-25 Union Budget.

Vivo to open new manufacturing facility, eyes investment

Vivo has invested ₹30 billion to build a new assembly line in Greater Noida with a capacity of 120 million devices annually, making it India's largest plant, surpassing Samsung's. Vivo is also seeking an Indian joint venture partner, with discussions with Tata Group, Murugappa Group, and Dixon Technologies ongoing but stalled over valuation.

Tata Electronics signs MoU with Synopsys for semiconductor fabrication

Tata Electronics has signed an MoU with Synopsys to use its design platform for Tata's \$10.9 billion semiconductor fab in Dholera, Gujarat. The collaboration includes factory automation, data analytics, and technology transfer. Approved on February 29, the Dholera plant, supported by Taiwan's Powerchip Semiconductor, will produce 3 billion chips annually in various nodes, advancing India's semiconductor manufacturing capabilities.
