Precision Engineered Lab Setups for the Evolving Electronics Industry

Since 1981
Four Decades of MESSUNG

Messung Workplace Technology brings over 43 years of manufacturing expertise to the electronics industry, delivering advanced, customized lab setup solutions designed to meet the precise requirements of this rapidly evolving sector. From ESD-compliant to Non-ESD setups, Messung's solutions address the critical demands of precision, safety, and operational efficiency—qualities essential to maintaining high standards in electronic product development and testing environments.

Our lab setups are crafted with the specific needs of the electronics industry in mind, enabling enhanced protection for sensitive electronic components, improved workflow efficiency, and adaptability to various workspace configurations.
