

Karnataka Hybrid Micro Devices Limited (KHMDL) is a premier Indian manufacturer of Thick-Film Hybrid Microcircuits, specializing in high-reliability solutions for the Space, Automotive, Industrial, and Commercial sectors. Additionally, KHMDL provides specialized Electronics Manufacturing Services (EMS) for the Avionics industry.

Every Indian Spacecraft including Chandrayaan-3, every third automobile on road and most of the aircraft manufactured in India incorporate a KHMDL product or its services

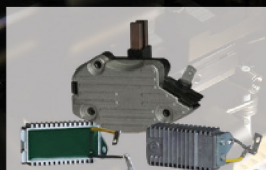

Products

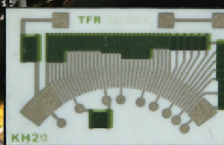

Hybrid Micro Circuits

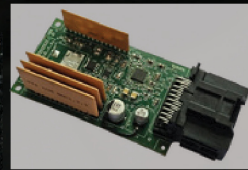

Resistor Network

Voltage Regulators

Fuel Sensor Tile

Light Control Module

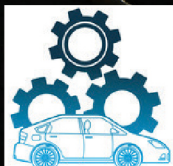

Soil Sensor

Sectors We Serve

Space

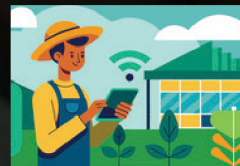

Automotive

Aerospace & Defence

Industrial

Smart Agriculture

KHMDL, #103, 4th cross, Electronic City, Hosur Road, Bangalore - 560100 (India)
