

India to procure 31 MQ-9B drones from the US worth \$3.3 billion

India has signed a ₹28,000 crore (\$3.3 billion) contract with the US government for 31 weaponised MQ-9B 'Predator' remotely piloted aircraft, along with another ₹4350 crore (\$520 million) deal with drone-manufacturer General Atomics to set up an MRO (maintenance, repair, and overhaul) facility in India. The first drone will be inducted by January 2029, with all the 31 being delivered in batches by October 2030.

Adani Group eyes \$3 billion chip manufacturing plant in Maharashtra

Adani Group plans to invest \$3 billion in the first phase of its semiconductor fab over the next 2-3 years, partnering with Israeli firms. The plant in Maharashtra is expected by 2027, with a total investment of \$7 billion-8 billion. The project, which will secure technology from Israel's Tower Semiconductor, follows the Maharashtra government's approval of the estimated \$10 billion venture in September.

Tessolve acquires German chip design firm for ₹4 billion

Tessolve, a Hero Electronix subsidiary, has acquired German chip design firm Dream Chip Technologies for ₹4 billion. This strategic move strengthens Tessolve's capabilities in AI, automotive, and data centre chip design, boosting its global presence. The acquisition enhances Tessolve's European operations, adding delivery locations in Germany and the Netherlands and expanding its engineering workforce.

Apple's India iPhone exports surge 33%, nearing \$6 billion

Apple's iPhone exports from India surged 33% to nearly \$6 billion in six months, reflecting the company's strategy to diversify manufacturing and reduce reliance on China. With increasing exports, Apple aims for over \$10 billion in

Calendar of EFY Group's Forthcoming Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact for details
EFY Expo Chennai December 12-14, 2024 Chennai Trade Centre, Chennai	Major tech conference focusing on electronics, IoT, and AI. Simplifies new product development and manufacturing challenges in India. Offers assistance from leading suppliers, even for small batch productions.	Website: https://chennai.efyexpo.com
India Electronics Week February 26-28, 2025 KTPO Expo Center, Whitefield, Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
EFY Expo Pune May 15-17, 2025 Auto Cluster Exhibition Centre, Pimpri, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE/

iPhone shipments in fiscal 2024. Its expansion in India, supported by government subsidies, is fuelling growth, despite competition from Chinese brands.

India's first 450-500MW green energy corridor along expressways planned for UP

The Global Energy Alliance for People and Planet (GEAPP) has signed with the Uttar Pradesh Expressways Industrial Development Authority to develop India's first 450MW-500MW solar park along the Bundelkhand Expressway. The ₹18 billion project aims to create a green energy corridor, potentially unlocking up to 10GW of solar power and advancing India's renewable energy goals.

Jindal Poly Films commits to double its capacitor film production capacity

Jindal Poly Films (JPFL), part of the BC Jindal Group, is investing ₹2.5 billion to double its capacitor film production capacity by 2025. This expansion aims to meet growing demand in electronics, automotive, and energy storage sectors, focusing on technology, quality, and innovation. The company aims to support India's goal of reducing import dependency.

Dixon launches India subsidiary for manufacturing IT components

Dixon Technologies has launched Dixon Teletech, a subsidiary focused

on manufacturing IT components. The move supports its expansion under India's PLI scheme, with plans to increase laptop assembly for brands like HP, Lenovo, Acer, and Asus. Dixon aims for ₹35 billion in IT hardware revenue by FY26, capitalising on government incentives and rising demand.

Dixon Technologies and Nokia join hands to boost India's broadband

Dixon Technologies has partnered with Nokia to manufacture broadband devices in India, aiming to meet rising demand for FTTH and 5G FWA technologies. A new Noida facility will produce up to 10 million devices annually, creating 3000 jobs. This collaboration aims to boost local economic growth and enhance India's broadband landscape.

Tata Technologies witnesses loss in profit for third consecutive quarter

Amid the international demand slump for EVs, Tata Technologies recorded its third consecutive quarterly drop in profits. Consolidated profit after tax dropped 2% to 1.57 billion rupees in the July-September quarter. Revenue rose 2% to ₹1.3 billion in the second quarter, while expenses grew about 1%. The company provides engineering and technical services to automotive, aerospace, and heavy machinery makers, with Tata Motors being its primary client.
