

PM Modi inaugurates first on-grid solar project with energy storage in Lakshadweep

Prime Minister Narendra Modi has officially inaugurated the first on-grid 1.7MW solar project with an advanced battery energy storage system (BESS) in Kavaratti and Agatti islands. The Lakshadweep Energy Development Agency (LEDA) will now derive power from these solar installations, replacing diesel-based energy. Developed by the Solar Energy Corporation of India (SECI), the initiative includes a 1.4MWh battery storage facility in Kavaratti.

Make in India 2.0 to focus on drones, robotics, EV components

The Ministry of Commerce & Industry has unveiled the second phase of 'Make-in-India,' emphasising drones, toys, robotics, EV components, and electronics. The Department for Promotion of Industry and Internal Trade

(DPIIT) will collaborate with 24 sub-sectors to bolster manufacturing in India. Sectors have been chosen based on strengths, competitive edge, import substitution, export potential, and increased employability.

BIS permits 64 electronics and IT goods for parallel testing

The Bureau of Indian Standards (BIS) has granted permission for parallel testing of all 64 products under electronics and IT goods (Requirements of Compulsory Registration Order), 2021. This includes mobile phones,

wireless earphones, headphones, laptops, notebooks, and tablets, among others. This shift enables BIS to concurrently examine all components, streamlining the testing procedure.
