

PHYTEC

Build Low-Power
EDGE Computing Device
using **phyCORE-i.MX8M PLUS**
module with builtin **NPU AI accelerator**

phyCORE®-i.MX 8M Plus

- Arm® Cortex®-A53/-M7
- The "smartest" i.MX 8 module
- Quad-core 1,8GHz Cortex-A53 processor
- On-chip image signal processor (up to 12 MP, 375 MP/s)
- Neural network accelerator up to 2,3 TOPS
- Fully TSN capable Ethernet

Upgrading Embedded Linux BSP to **YOCTO**

Tech-Talk
