

PRODUCT SUITE

APPLICATION

ASSETS

LTEDGE™ I/O Gateway

- Powerful SoM-based architecture
- High speed ports for peripherals
- Wide range of wired & wireless connectivity options
- Compatibility with all standard industrial protocols

LTEDGE™ I/O Module

- Expandable channels via daisy-chaining
- Compatibility with standard edge IoT hardware
- Channel Isolation
- Multiple mechanical form factor configurations

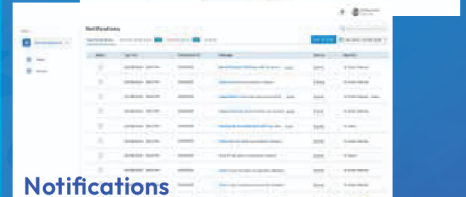

LTEDGE™ Computer

- Secure & energy-efficient connectivity with LTE, 3G, 2G
- Wireless bands
- Expandable antenna range
- Wide range of built-in I/O's

Views Management

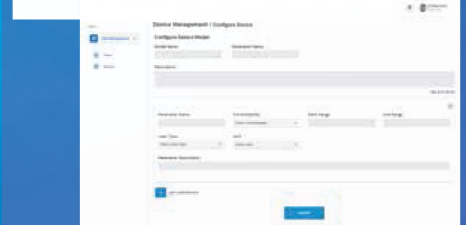

Rules Engine

Rule ID	Rule Name	Rule Description	Rule Status	Rule Type	Rule Action
1	Temperature High	Temperature is above 100 degrees	Active	Alert	Send Email
2	Pressure Low	Pressure is below 100 psi	Active	Alert	Send Email
3	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
4	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
5	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
6	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
7	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
8	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
9	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
10	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email

Notifications

Notification ID	Notification Name	Notification Description	Notification Status	Notification Type	Notification Action
1	Temperature High	Temperature is above 100 degrees	Active	Alert	Send Email
2	Pressure Low	Pressure is below 100 psi	Active	Alert	Send Email
3	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
4	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
5	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
6	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
7	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
8	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
9	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
10	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email

Device Configuration

Device ID	Device Name	Device Description	Device Status	Device Type	Device Action
1	Temperature High	Temperature is above 100 degrees	Active	Alert	Send Email
2	Pressure Low	Pressure is below 100 psi	Active	Alert	Send Email
3	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
4	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
5	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
6	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
7	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
8	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email
9	Flow Rate High	Flow rate is above 100 gpm	Active	Alert	Send Email
10	Flow Rate Low	Flow rate is below 100 gpm	Active	Alert	Send Email

INDUSTRIES SERVED

OIL & GAS

WATER & CHEMICAL

DISCRETE MANUFACTURING

FERTIGATION & HYDROPONICS

INDUSTRIAL AQ & EMISSIONS MONITORING

TEXTILE, TIMBER, RUBBER MANUFACTURING
