

Japan's TDK to produce lithium-ion batteries in India

Japan's TDK Corporation is set to produce lithium-ion battery cells for Apple's iPhones in Haryana, amid Apple's efforts to diversify its manufacturing operations beyond China. This will be one of the first major iPhone components to be sourced locally in India, aligning with the country's growing role as a major hub for Apple's production. The batteries manufactured by TDK will be supplied to Sunwoda Electronics, a lithium-ion battery assembler already functioning in India and currently importing battery cells from various international markets.

Tata Group to invest ₹400 billion for semiconductor processing facility in Assam

Tata Group is planning to establish a semiconductor processing facility in Assam with an investment of around ₹400 billion. Tata Electronics Ltd has proposed to set up an electronics centre at Jagiroad, located approximately 55km from Guwahati in Morigaon district. This semiconductor assembly and packaging plant is seen as a major step towards boosting industrialisation in the state. Tata Group intends to collaborate with the state government to train 1000 youths for employment opportunities at the new facility.

Belrise cancels \$2.5 billion deal with Gogoro for battery swapping infrastructure

Pune's Belrise Industries, formerly known as Badwe Engineering, has decided to withdraw from its \$2.5 billion commitment to develop a battery-swapping infrastructure. This decision affects the tripartite agreement formed with the Maharashtra government and Taiwanese company Gogoro. This decision was influenced by the current lack of standardisation in batteries and connectors, which hindered the interoperability among various operators,

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events		
Event, Date and Venue	Topics	Contact for details
VLSI 2024 January 6-10, 2024 ITC Royal Bengal, Kolkata	Theme: VLSI meets AI and Quantum for Cyber-Physical Systems. A platform for collaboration between multinational corporations, startups, industry organisations, and academics to synergise with what India's East and Northeast regions have to offer.	Website: https://vlsid.org
NEPCON JAPAN January 24-26, 2024 Tokyo Big Sight, Japan	Asia's leading exhibition for electronics R&D, manufacturing, packaging, and more. Consists of six specialised shows in essential areas for electronics manufacturing and R&D, making it a one-stop venue for all in the electronics industry.	Website: https://www.nepconjapan.jp/hub/en-gb.html
India Electronics Week January 31 - February 2, 2024 KTPO, Whitefield Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
IoTShow.in 2024 January 31 - February 2, 2024 KTPO, Whitefield Bengaluru	The conferences and hands-on workshops, cutting-edge talks and trainings by industry stalwarts and thought leaders will help build the skills you need to get ahead in the field.	Website: https://www.iotshow.in
EFY Expo Pune May 16-18, 2024 Auto Cluster Exhibition Centre, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE/?
Integrated Electronics Manufacturing And Interconnections 2024 (IEMI) July 29-30, 2024 Bengaluru	Themes: Advanced semiconductor packaging and aerospace and defence electronics. A networking platform for procurement and quality heads of OEMs, EMS, and semiconductor suppliers. Features top officials from government-owned defence, aerospace, and multinational corporations.	Website: https://www.ipc.org/ipc-india/iemi-2024-bangalore
EFY Expo Delhi-NCR August 2024 New Delhi	Major tech conference focusing on electronics, IoT, and AI. Simplifies new product development and manufacturing challenges in India. Offers assistance from leading suppliers, even for small batch productions.	Website: https://www.efyexpo.com/delhi-ncr/?
19th Everything About Water Expo 2024 September 10-12, 2024 IICC, New Delhi	South Asia's largest water and wastewater event showcasing the latest technologies and solutions in water and waste management, endorsed by the Ministry of Jalshakti in India.	Website: https://www.eawaterexpo.com
Open Source India 2024 October 23-24, 2024 Bengaluru	Open Source For You magazine, in partnership with India's open source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in

essential for maximising the usage of the swapping stations.

Government officials under investigation for misappropriation of FAME II Subsidy funds

Government officials are currently under investigation for their role in approving subsidies under the FAME scheme, where companies misappropriated funds by utilising imported components in their electric vehicles. Recovery notices totalling ₹4.5 billion have been issued to seven companies, and some have promptly returned the wrongfully claimed amount. Consequently, these companies are now prohibited from submitting future claims under the FAME scheme.

Subsidies for electric two-wheelers might be discontinued shortly

The government is likely to phase out subsidies for electric two-wheelers soon, showing little interest in initiating FAME III despite demands from domestic manufacturers and support from the Ministry of Heavy Industries. This decision aligns with the finance ministry's opposition and broader governmental consensus on the matter. Following a subsidy cut earlier this year, electric two-wheeler demand initially declined but is now showing signs of stabilisation.

Tata Motors urges India to maintain EV import taxes amid Tesla's entry

Tata Motors is urging Indian authori-
