IMS-100**Smart Storage Rack****IMS-200****AXC-800III****AXC-800III Plus****AXI-5100c**

Complete integrated solutions for seamless component reels management. The Incoming Material System (IMS) scans the labels, registers the reels, and places the new labels. Smart Racks with sensors give real-time inventory update and makes kitting easy and accurate. X-ray component counter also updates the inventory and makes JIT (Just In Time) inventory a reality.
