

PCB anti-dumping duty affects IT hardware PLI recipients

The imposition of a 30% anti-dumping duty (ADD) on bare PCBs in India is adversely affecting companies involved in IT hardware manufacturing under the PLI scheme, making their products less competitive globally. This decision followed complaints from six local PCB manufacturers about cheap imports from China and Hong Kong. The duty increases production costs, making Indian products less competitive in the global market. Executives estimate cost impacts: 3-4% for lighting products, 1% for IT hardware, and 2-3% for telecom products.

European Commission imposes anti-dumping duties on Indian optical fibre cable imports

The European Commission has imposed provisional anti-dumping duties on Indian optical fibre cable manufacturers, ranging from 8.7% to 11.4%, impacting several key exporters but has exempted HFCL Ltd and its subsidiary HTL Ltd. Investigations were initiated in October 2023 due to complaints by the European optical fibre cable industry regarding dumping by Indian exporters. Detailed data requests were made to Indian manufacturers, followed by validation visits to verify pricing practices. Companies like Sterlite Technologies await further consultations before final duty implementation.

India's electronics manufacturing growth to double in 5 years

India's electronics manufacturing sector is poised to double in the next five years, with a target reaching approximately \$250 billion, driven by government initiatives and incentive schemes. The current electronics production stands between \$125-130 billion. The Indian government aims to address unemployment by doubling jobs in the sector from 2.5 million to 5 million. The government has allocated ₹760 billion for electronics manufacturing.

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact for details
Integrated Electronics Manufacturing And Interconnections 2024 (IEMI) July 29-30, 2024 Bengaluru	Themes: Advanced semiconductor packaging and aerospace and defence electronics. A networking platform for procurement and quality heads of OEMs, EMS, and semiconductor suppliers. Features top officials from government-owned defence, aerospace, and multinational corporations.	Website: https://www.ipc.org/ipc-india/iemi-2024-bangalore
19th Everything About Water Expo 2024 September 10-12, 2024 IICC, New Delhi	South Asia's largest water and wastewater event showcasing the latest technologies and solutions in water and waste management, endorsed by the Ministry of Jalshakti in India.	Website: https://www.eawaterexpo.com
Open Source India 2024 October 23-24, 2024 Bengaluru	Open Source For You magazine, in partnership with India's open source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in
EFY Expo Chennai December 5-7, 2024 Chennai Trade Centre, Chennai	Major tech conference focusing on electronics, IoT, and AI. Simplifies new product development and manufacturing challenges in India. Offers assistance from leading suppliers, even for small batch productions.	Website: https://www.efyexpo.com/delhi-ncr/
India Electronics Week February 26-28, 2025 KTPO Expo Center, Whitefield, Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
EFY Expo Pune May 15-17, 2025 Auto Cluster Exhibition Centre, Pimpri, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE/

Google to make Pixel smartphones at Foxconn and Dixon facilities from September

Google plans to commence manufacturing Pixel smartphones at Foxconn's facility in Tamil Nadu in addition to its existing arrangement with Dixon Technologies, aiming to leverage local production to tap into the Indian and global markets. The initiative includes setting up a new factory, as confirmed by Chief Minister M K Stalin, aimed at enhancing local production capabilities.

Dutch broadband equipment supplier eyes ₹1 billion investment in India

GX Group, a Netherlands-based broadband equipment supplier, plans to invest ₹1 billion in setting up a new manufacturing unit in India to bolster its export capabilities. This facility aims to produce broadband equipment including Wi-Fi routers, access points, GPON, and XGS PON, primarily for export markets. The company previously set up a plant in Manesar, Haryana, in 2021 under the Dutch Good

Growth Fund initiative. It is evaluating states like Gujarat, Tamil Nadu, and Uttar Pradesh for the new facility based on ecosystem maturity and incentives.

BPL invests ₹200 million in new PCB manufacturing unit

BPL has launched a new PCB manufacturing facility in Doddaballapur, Bengaluru, investing ₹200 million. The facil-
