

One Stop Solution

Enterprise IoT Platform

Industry 4.0

Cold Chain Monitoring

Connected vehicle

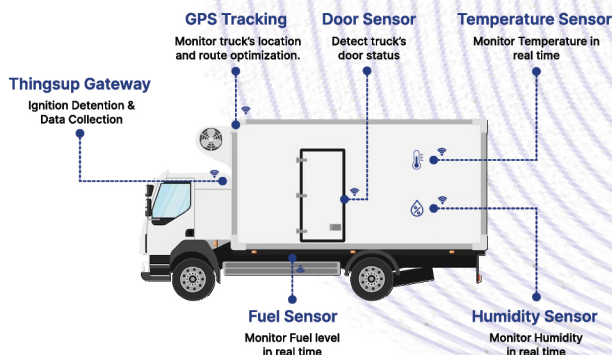

Energy Monitoring

Make your **EV** smart & connected

Thingsup is a Sector and device-agnostic enterprise-grade Global IoT platform. Started in 2016, we currently have 1 Lakh+ IoT nodes, processing hundreds of terabytes of data every day.

All the products under the Thingsup umbrella, such as Cold Chain Monitoring, Energy Monitoring, Machine monitoring, Smart instrument clusters, and Telematics, help our customers in their Digital Transformation journey from day 1.

Become the backbone of the Global IoT deployments is our mission for next 10 years!!

Real time cold chain logistics monitoring
