

Thank you for coming back to our village after becoming a Python programmer.

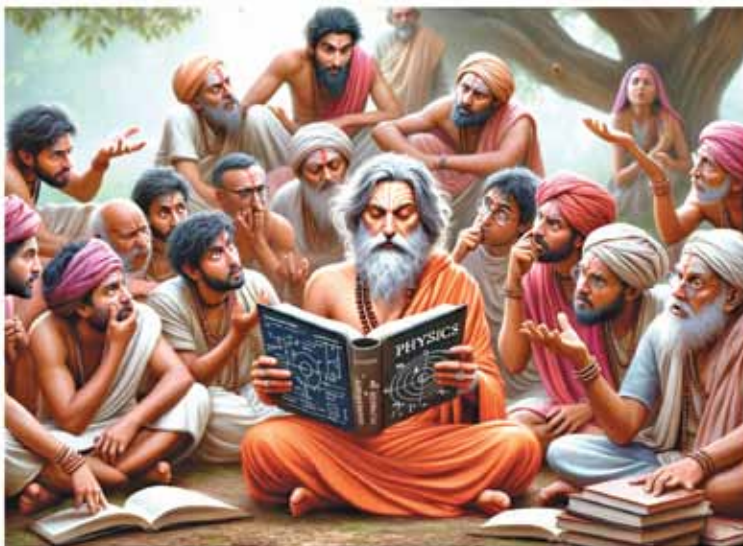

He says he wants to go the the USA for higher studies, more specifically to the University at Buffalo!

Sir, thanks for your concern, but all of our animals have fled the village after you posted this robot as our veterinary doctor!

I too thought Python programming was difficult until I found this one!

These modern books are very tricky. They tell us what our ancestors said in a way that we cannot understand now!

I know you could not get a college degree, failed in math, and cannot run our business. How about marrying a robot?
