DEV ARORA
CO-FOUNDER AND
CEO, ALT MOBILITY

“IN VEHICLE FINANCE, Understanding The Details Of The Vehicle And Battery’s Condition And Usage Is Key TO ACCURATELY ASSESSING RISK”

Not driving a petrol or diesel-powered vehicle for a few weeks will not harm the engine. However, electric vehicles left idle for the same period without periodic charging can become inoperative. Dev Arora, Co-founder and CEO of ALT Mobility, highlights this as a primary challenge in financing commercial electric vehicles

How is ALT Mobility contributing to EV adoption in India?

ALT has been a catalyst in accelerating EV fleet adoption in India by enabling access to integrated leasing solutions that provide the lowest total cost of ownership and highest uptime and reliability for the logistics sector.
