

# 5 Reasons to switch to an eyepiece-less stereo microscope

## 1

### Greater freedom of head movement

Get unstuck from a fixed  
head position

## 2

### Manipulate objects without losing focus

Improved hand eye-coordination  
and manipulation of objects

## 3

### Maintain a comfortable body position

Improve productivity with  
enhanced user comfort

## 4

### Reduce eye strain and headaches

**94%** of microscope users report  
visual problems and headaches

## 5

### Wear glasses/ Safety goggles

Eyewear users do not need  
to compromise their vision
