JANARDHANA SWAMY

Are you saying you are just a robot and that you fooled me to marry you? Well, I am a robot too!

Just because my name is 'Sophia,' it does not mean I am a robot!

Thank you all for joining my dance class. Let us get started with this first move!

I lost my job due to recession. Would you mind if I join you in farming?

Electronics prices are continuously falling. I sold one buffalo yesterday and bought this robot to take care of the others!

Of course, your metal detector will beep. Unlike you, I am made of mostly metal and electronics!
