

ODM & OEM

Routers, Gateways, Switches & Energy Meters

MADE IN BHARAT
DESIGN PARTNERS WITH ALL MAJOR NETWORKING CHIPSET MANUFACTURES

INDIAN ORIGIN GLOBAL DEPLOYMENT

IoT ENABLED ENERGY METER

MULTI FUNCTION METER

ENERGY METER

The GSM-based meters deliver real-time AC & DC power insights, empowering you to optimize consumption and boost efficiency, a leap forward in monitoring and managing overall consumption. This meter is more than just a meter. It's a gateway to a smarter, more sustainable future.

Multi-Function Meters (MFM) are the simple, robust solution for advanced power & energy monitoring. These meters are engineered with easy integration to suit any kind of projects environment and a wide range of Measuring parameters to meet the energy efficiency monitoring needs.

ROUTER, GATEWAYS & SWITCHES

INDUSTRIAL 5G/4G ROUTER

ROUTERS

Cellular IoT products redefine connectivity, seamlessly integrating IoT devices across industries. Our devices leverage cellular networks for reliable, scalable communication and find usage from smart cities to agriculture. These devices enable real-time data collection, driving operational efficiency and cost savings.

These products empower businesses to embrace the future of connected devices, unlocking unprecedented efficiency and productivity facilitating digital transformation. Join us as we explore the transformative power of cellular IoT in reshaping industries and driving innovation forward.
