

Accelerate **EV Charger** Development using proven **phyCORE-AM62x** module

phyCORE®-AM62x

- Arm® Cortex™-A53/M4F
- Single, dual or quad core cortex®-A53 (up to 1,4GHz)
- 1x isolated cortex®-M4F MCU (up to 400MHz) for general purpose, security and protection
- Dual display support with 24-bit RGB parallel interface
- Selectable GPU support, up to 8 GFLOPS, for better graphics performance

TI EV charger reference design using PHYTECs phyCORE-AM62x Module

Empowering tomorrow's Tech with our **System on Modules** and **Single Board Computers** - your ultimate **One-Stop Solution for Design, Development, Manufacturing** services
