ASSETS

LTEEDGE™ I/O Gateway

- Powerful SoM-based architecture
- High speed ports for peripherals
- Wide range of wired & wireless connectivity options
- Compatibility with all standard industrial protocols

LTEEDGE™ I/O Module

- Expandable channels via daisy-chaining
- Compatibility with standard edge IoT hardware
- Channel Isolation
- Multiple mechanical form factor configurations

LTEEDGE™ Computer

- Secure & energy-efficient connectivity with LTE, 3G, 2G
- Wireless bands
- Expandable antenna range
- Wide range of built-in I/O's

Views Management

Rules Engine

Rule ID	Rule Name	Rule Type	Rule Status	Rule Description
1	Temperature High	Alert	Active	Alert when temperature exceeds 100°C
2	Pressure Low	Alert	Active	Alert when pressure drops below 10 bar
3	Vibration High	Alert	Active	Alert when vibration exceeds 10 mm/s²
4	Flow Rate Low	Alert	Active	Alert when flow rate drops below 10 L/min
5	Power Consumption High	Alert	Active	Alert when power consumption exceeds 100W

Notifications

Notification ID	Notification Name	Notification Type	Notification Status	Notification Description
1	Temperature High	Alert	Active	Alert when temperature exceeds 100°C
2	Pressure Low	Alert	Active	Alert when pressure drops below 10 bar
3	Vibration High	Alert	Active	Alert when vibration exceeds 10 mm/s²
4	Flow Rate Low	Alert	Active	Alert when flow rate drops below 10 L/min
5	Power Consumption High	Alert	Active	Alert when power consumption exceeds 100W

Device Configuration

INDUSTRIES SERVED

OIL & GAS

WATER & CHEMICAL

DISCRETE MANUFACTURING

FERTIGATION & HYDROPONICS

INDUSTRIAL AQ & EMISSIONS MONITORING

TEXTILE, TIMBER, RUBBER MANUFACTURING
