

Save **20%** on active probes!

SDS7000A

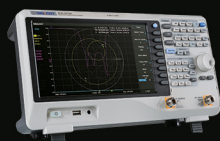

SDS6000A

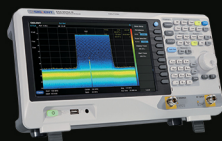

For any newly purchased SDS6000A and SDS7000A series oscilloscope, get 20% discount on following active probes.

SAP1000	1 GHz Active Probe
SAP2500	2.5 GHz Active Probe
SAP2500D	2.5 GHz Differential Active Probe
SAP4000P	4 GHz Power Rail Probe

Save **20%** on a calibration kit!

SVA1000X

SSA3000X-R

Buy a new SSA3000X-R and SVA1000X series instrument, select one of the following calibration kit to get 20% off.

Y504MS/Y504FS

F603ME/F603FE/F604MS
F604FS/F604TS...

F503ME/F503FE/F504MS
F504FS/F504TS...

Choose **THE ONE** option for your application!

Purchase a new SSA5000A, SNA5000A, SNA6000A, SHA850A, or SHN900A Series instrument and select a free analysis option for your application. Select One from the following options:

- Advanced Measurement Kit
- Analog Modulation Analysis
- Digital Modulation Analysis
- Bluetooth signal measurement
- Pulse signal measurement
- Phase noise measurement
- Noise figure measurement
- EMI measurement mode

SNA6000A

SNA5000A

SSA5000A

SHN900A

SHA850A

Purchase a new SDS2000X HD, SDS3000X HD, SDS7000A Series 12-bit high resolution oscilloscope and select a free analysis option for your application. Select One from the following options:

- Power Analysis
- I2S trigger & decode
- MIL-STD-1553B trigger & decode
- FlexRay trigger & decode
- CAN FD trigger & decode
- SENT trigger & decode
- ARINC429 trigger & decode
- etc...

Important Information:

* The promotion valid from 10/1/2024 thru 3/31/2025 with purchase of new analyzers and oscilloscopes of the above models.
