

Check your old records. Since when the Google decides our borders?

This self-driving car seems to have misunderstood its purpose. It is claiming, it is for its own use!

Mom, AC is expensive. Fan is not portable. This 20kg heatsink is best for you!

Isn't it worrisome? None of us are sure anymore if we are humans or machines!

Thanks for awarding me a PhD, but I am still not sure what my thesis 'Multifaceted Paradigm of Quantum Leveraging of AI Entangled in ML Substrates' means!

Son, your passion for electronics is great, but isn't it too much to name your kids Circuit Board and Soldering Gun?
