Real-Life Role Model/Inspiration: Prof. V. Rajaraman for his simplicity and Dr B.K. Gairola for his problem solving

and cyclist. Though limited by age and time now, these activities used to be a big part of his life. "I used to cycle as far as 10 to 15 kilometres every morning. Even as a kid I liked to do physical exercise and be an outdoor person. Whether in school or at IIT, I would regularly go for long walks, sometimes 4-5 kilometres a day," he shares. When he is not working, Prof. Moona engages in bird watching, photography, badminton, and gardening.

Quoting Robert Frost, Prof. Moona says, "The woods are lovely, dark and deep, but I have promises to keep, and miles to go before I sleep." Forever persevering and pushing forward, Prof. Moona believes that his journey on the path of knowledge will never end. "There's always more to do; dedication and diligence are the only things you can truly control," he says.

With India entering a new era of technological innovation, Prof. Rajat Moona's contributions to the country have been instrumental in redefining the usage of technology for efficient and fair governance. Today, as the director of IIT Gandhinagar, Gujarat, Prof. Moona is sitting at the epicentre of electronics innovation, guiding the path for young minds who are set to take India's electronics story to the next level.

Personifying sincerity and devotion to his work, without worrying about the outcome, Prof. Moona calls learning his best reward. "The only thing I dwell on from the past is my learnings, and I carry no worry about the future. What matters is the present and what I do with it. I live in the present, without concern for what the future holds," he says, as he moves on to continue living a humble and hardworking life. **EFY**
