## ESD Diode ESD5B5V0WT-AQ

Make Sure Your Car Is Ready for the Next Trip with Latest Connectivity Technologies, Protected by the ESD Diode ESD5B5V0WT-AQ!

Upgrade your vehicle with cutting-edge connectivity technologies to stay connected and prioritize safety on the road. The touchscreen interface offers seamless, wireless integration with your smartphone, providing ultimate convenience. Serving as a bridge between your smartphone and the vehicle's infotainment system, this system can be installed in any vehicle.

**ESD Protection Diodes**  
ESD5B5V0WT-AQ  
in the SOD-523 package  
5 V | 50 W | 1uA  
For Bluetooth and Wi-Fi  
connectivity modules

The vehicle display mirrors your smartphone's user interface, enabling hands-free calling, navigation, and entertainment while driving. Universally compatible, it offers a plug-and-play experience for smartphone users, ensuring smooth integration into any vehicle. Enhance your driving experience with a smarter and safer way to use your phone on the go.

Diotech's ESD5B5V0WT-AQ is the ideal automotive-grade ESD protection device for capacitive touch displays. Supplied in a SOD-523 package, it fits in the tightest spaces while delivering 50W of peak pulse power dissipation. With only 32pF of junction capacitance, it is perfect for protecting the I2C interface port with a 5V stand-off voltage and a maximum reverse current of only 1uA. It is used for connectivity modules to support wireless communication such as Bluetooth and Wi-Fi.
