

India Semiconductor Mission 2.0 likely soon with twenty new projects under review

The Ministry of Electronics and Information Technology (MeitY) is planning to extend fiscal support for ISM Phase-II from five to eight years, possibly removing technology transfer funding and boosting administrative budgets. The revised phase may reduce incentives for outsourced assembly while increasing support for domestic chip production and skill development. A \$10 billion budget is expected soon, with twenty new projects under review to enhance the semiconductor industry.

Cabinet approves ₹109 billion PM E-DRIVE scheme

The Union Cabinet has approved the ₹109 billion PM Electric Drive Revolution In Innovative Vehicle Enhancement (PM E-DRIVE) scheme to boost electric vehicle adoption in India. Replacing the FAME initiative, it focuses on

electric two-wheelers, three-wheelers, buses, trucks, and hybrid ambulances, excluding cars. It includes subsidies, EV chargers, and funds for electric buses and ambulances.

PEOPLE (on the move)

Preeti Bajaj becomes the new president of IBMA

At its third Annual General Meeting, the Indian Battery Manufacturers Association (IBMA) appointed Preeti Bajaj, CEO of Luminous Power Technologies, as its new president, succeeding Arun Mittal. A Harvard graduate, she has nearly two decades of leadership experience. Bajaj aims to advance IBMA's sustainability and innovation goals while enhancing India's position in global battery manufacturing.
