BOOTH NO. H14.C21

11th-13th SEPTEMBER 2024

📍 GREATER NOIDA

essemtec
A HYDRO-DRAGON DIVISION

Puma SMT Pick & Place Machine

High-speed micro-jet dispensing and mounting in single pass-through with quick changeover for high-mix, low-volume NPI/Prototype & medium range production.

JUKI

LX-8 SMT Pick & Place Machine with fusion concept

High-speed placement (105,000+ CPH) with versatile heads for chip and multi-mounting.

JUKI

Multitask Platform JM-20

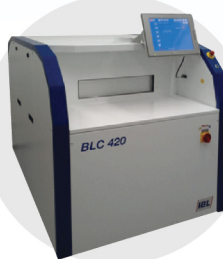

Higher quality, labor saving – automating manual insertion for larger/heavier components.

SCIENSCOPE

IMS-100

Automizes your incoming process and makes the relabeling process easy, fast and operator error free.

IBL

BLC 420 Batch Soldering

A smart machine to solder electronic components onto printed circuit boards with high quality and efficiency.

JUKI

RV-2-3DH 3D AOI/ 3D SPI

Space-saving and compact single-lane inspection machine.

SCIENSCOPE

AXC-800 III

A game-changing tool for component inventory management.

SCIENSCOPE

Smart Storage Rack for Reels

The ultimate solution for electronic component storage.
