

MeitY announces \$350 billion PLI plan for sub-assemblies

MeitY is allocating \$350 billion to a new PLI scheme to make India a global hub for electronics components. This initiative targets a 25-28% value addition and export growth boost. It includes significant investments in sub-assemblies such as camera modules and battery packs and supports advancements in semiconductor technology and AI regulation.

MeitY reports investment gains in SPECS, PLI schemes

India's SPECS and PLI schemes have advanced significantly as of June 2024, according to the Minister of State for Electronics and IT, Jitin Prasad. The SPECS scheme garnered ₹88.03 billion in investment and generated ₹180.84 billion in production. The PLI scheme attracted ₹83.9 billion in investment and achieved ₹5.14 trillion in production. Both initiatives are designed to enhance domestic electronics manufacturing and investment.

Mobile makers invested ₹82.82 billion under PLI since 2020

As of June 2024, 32 companies have invested ₹82.82 billion under India's PLI scheme for large-scale electronics since its inception in 2020, according to Minister Jitin Prasad. Of these, 7 are greenfields, and 25 are brownfields. Greenfield investments totalled ₹31.36 billion, while brown-field investments were ₹51.46 billion. The PLI scheme aims to boost electronics manufacturing and has been extended to 2025-26 to accommodate Covid-19 impacts.

India's electronics imports exceed \$20 billion again

India's electronic goods imports surpassed \$20 billion for the fifth consecutive quarter, with components making up over half. Despite efforts to boost domestic manufacturing, imports grew by 12% YoY, reaching

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Event, Date and Venue	Topics	Contact for details
19th Everything About Water Expo 2024 September 10-12, 2024 IICC, New Delhi	South Asia's largest water and wastewater event showcasing the latest technologies and solutions in water and waste management, endorsed by the Ministry of Jalshakti in India.	Website: https://www.eawaterexpo.com
Open Source India 2024 October 23-24, 2024 Bengaluru	Open Source For You magazine, in partnership with India's open source community and industry, brings various stakeholders under one roof to accelerate development and deployment of open source in India, and beyond.	Website: https://www.opensourceindia.in
EFY Expo Chennai December 5-7, 2024 Chennai Trade Centre, Chennai	Major tech conference focusing on electronics, IoT, and AI. Simplifies new product development and manufacturing challenges in India. Offers assistance from leading suppliers, even for small batch productions.	Website: https://www.efyexpo.com/delhi-ncr/
India Electronics Week February 26-28, 2025 KTPO Expo Center, Whitefield, Bengaluru	India's No. 1 event for creators of smart electronics solutions to discover latest techniques, best practices and technologies for developing electronics better, cheaper and faster, and meet service providers, suppliers and partners who can enable growth of your business.	Website: www.indiaelectronicsweek.com
EFY Expo Pune May 15-17, 2025 Auto Cluster Exhibition Centre, Pimpri, Pune	Electronics expo with conferences on automotive electronics, EVs, and Industry 4.0 (IIoT). Covers a wide range of electronics-related technologies, products, and topics, including electric drives, battery management systems, and IIoT solutions.	Website: https://www.efyexpo.com/PUNE/

\$22.8 billion in Q1 FY25. Experts recommend a new PLI scheme for components to reduce reliance on imports and support domestic production.

Government elevates incentives for drone manufacturing by 37.5%

To make India a global drone hub by 2030, the central government has increased production-linked incentives for local drone manufacturing by 37.5%, raising the total to ₹1.65 billion over three years. The Union Budget also boosted allocation to ₹570 million for the current year. This move aims to enhance local production, cut import reliance, and support job creation in the drone sector.

MHI calls for more component localisation for EVs under FAME-III

To boost local EV manufacturing under the FAME-III scheme, the Ministry of Heavy Industries (MHI) proposes reducing the number of components under the Phased Manufacturing Programme (PMP) from 18 to 12. This includes requiring domestic production of components like wiring harnesses and control devices. The ministry is refining localisation strategies, ensuring more parts are sourced domestically and limiting imports.

Assam Government leases land to Tata Group for chip packaging unit

The Assam Government has leased 170 acres to Tata Group for a ₹270 billion semiconductor facility in Jagiroad, Morigaon district. The 60-year lease focuses on advanced chip packaging technologies, including wire bond, flip chip, and integrated systems packaging. The plant, expected to create over 30,000 jobs and begin in mid-2025, aims to meet global demand for electronics.

Karnataka allocates ₹7.14 billion to attract chipmakers

Karnataka plans to develop four semiconductor industrial clusters on 901 acres, with a ₹7.14 billion investment to attract firms. The clusters will be located in Hubballi, Mysuru, Tumakuru, and Bengaluru Rural. Despite the investment, the state faces challenges competing with Gujarat's incentives, attracting semiconductor companies.

Odisha partners with US to boost its fabless chip ecosystem

Odisha is seeking US investments to establish its first semiconductor plant following a policy amendment
