

GAUSSMETERS FOR ACCURATE & FAST MAGNETIC FIELD MEASUREMENT

- Resolution upto 0.1G
- Wide Range upto 40KG
- Very accurate: $\pm 0.2\%$
- Highly stable readings
- Desktop and Handheld model both option available
- Computer Interface model also available
- Interchangeable Probes
- Separate probes available for both flat surface and solenoids

- Different model to suit every need of Industries and R&D labs
- Both AC/DC field measurement available

Technology Drives Us

“
In good
times people
want to
advertise.
In bad times
they have to.”

-Bruce Barton

INDUSTRIAL GRADE **POWER** SOLUTIONS

Industrial Grade Online UPS

- Capacity up to 300KVA, available in all configurations and capacity
- Input power factor correction, Static bypass, SNMP, Serial interface, Modem support
- Highly rugged and reliable DSP based design, Prompt service support.

Power supply solutions for other applications

Various power supply solutions for Industrial, R&D, Space, Defence, Railway application

Static UPS/ Solar Inverters

- Capacity up to 40KVA single Phase, 300KVA three phase
- Cost effective alternative of online UPS in stable power supply
- Low battery consumption and longer backup, Run anything from computer to air conditioners etc.
- Highly efficient & reliable
- MPPT Charge Controller integration for Solar Inverter model
- Hybrid Inverter with Grid Tie Interface to Export energy to Grid
