

India has adopted RISC-V as the national ISA!

Attend, Learn & Kickstart Your Next **RISC-V** Product

SiFive & Open-Silicon Tech Symposiums

This August, industry veterans and academic luminaries are hosting a series of informational seminars throughout India to present on the RISC-V revolution. Attendees will learn about SaaS based platform enabling fast access to custom RISC-V core IP, robust RISC-V design platforms, turnkey custom SoC solutions and IP subsystems, all of which will enable the proliferation of RISC-V based products in India.

Register now to take advantage of this opportunity to learn more and to kickstart your next RISC-V project.

SYMPOSIUM SERIES Time: 9:30 AM to 4:30 PM

HYDERABAD

Monday, August 20
Novatel HITEC City

BANGALORE

Thursday, August 23
The Leela Palace

CHENNAI

Friday, August 24
Taj Coromandel

PUNE

Monday, August 27
Hyatt

KOLKATA

Wednesday, August 29
Novatel

NOIDA

Friday, August 31
Radisson Blu

Registration is free. Please register now as seating is limited. We have planned a longer lunch break, and coffee breaks throughout the day, to offer you the unique opportunity to interact with RISC-V inventors and solution providers and to view product displays.

SPEAKERS

Dr. Naveed Sherwani

Chief Executive Officer, SiFive
A 25-year industry veteran in entrepreneurship, technical engineering and management, and founder and co-founder of nine companies, including Open-Silicon, Brite Semiconductor and Intel Microelectronics Services.

Dr. Yunsup Lee

Co-Founder & Chief Technology Officer, SiFive
Co-designer of the RISC-V ISA and the first RISC-V microprocessors at the University of California, Berkeley, and leader of the development of the Hwacha decoupled vector-fetch extension.

Dr. Krste Asanovic

Co-Founder & Chief Architect, SiFive
Chairman of the RISC-V Foundation, IEEE Fellow and professor in the EECS Department at the University of California, Berkeley, where he directs the ADEPT Lab and leads the university's RISC-V ISA project.

Sunil Shenoy

VP of Hardware Engineering, SiFive
A developer of microcontrollers, microprocessors, graphics, media and supercomputing processors for over 30 years at Intel, and holder of 16 microprocessor design patents.

Dr. Shafy Eltoukhy

SVP, Operations and GM of SoC Division, SiFive
A 35-year industry veteran in business unit management, operations and technology development of custom silicon, analog, mixed signal, structured ASICs and FPGA products.

Huzefa Cutlerywala

MD and VP Sales EMEA and Asia, Open-Silicon, a SiFive company
A 20+-year industry veteran with extensive experience in ASIC design and manufacturing, and sales and business development around the globe.

Swamy Irrinki

Senior Director of Marketing Open-Silicon, a SiFive company
Marketing professional with diversified experience in the high tech industry, developing marketing strategy and digital marketing solutions for SoCs and networking/storage/computing ASICs.
