

IN-CAR GADGETS TO HELP YOU DRIVE EASY AND SAFE

Paromik Chakraborty

Rollr Mini is a nice device to start with. Created by Rollr, a Telematics subsidiary of the Samvardhana Mother-son Group, this compact gadget is capable of navigation and trip details tracking, real-time car location tracking, vehicle health analysis and alert messages generation.

Amit Upadhyay, CTO, Rollr, says, "This plug-and-play device fits to the car's on-board diagnostics (OBD) port and can start functioning in a matter of a few steps." The gadget comes with an embedded

Parking during office hours is like solving calculus equations! It's good to have someone help with directions while fitting your car into that tight spot. But what happens if you are on your own? In this article, we cover gadgets that become your second set of eyes and ears on the road. These can guide you while reverse parking, tell whether your car needs servicing or even help you stay awake if you are driving late at night

SIM card with preactivated plan. You need to download the Rollr mobile application to configure the device. Thereafter you are ready to roll with Rollr. You can keep a constant tab on your vehicle's navigation route if someone else is driving it. In case of car issues that need fixing, you can get a complete analysis of the root cause.

Amit says, "The device can also rate driving behaviour. In a dashboard view on the app, it provides an overall driving skills rating out of 10 for each driver account, along with other detailed information such as harsh driving and speed-breaking.

The application also provides suggestions and trainings for improving driving skills, evaluating the rating received." The device is priced at ₹ 6499.

CarSense, another plug-and-play device, is also a great choice. Similar to Rollr Mini, it fits into the OBD port and comes with an embedded SIM for GSM connectivity. The CarSense application provides all necessary data. Other than real-time GPS tracking and trip history analysis, CarSense delivers on the safety and emergency front too. If someone tries to break into your car, or if it is being
