

Car health analytics application (Source: rolir.io)

towed, you will get instant alerts.

CarSense automatically sends an SMS to emergency contacts in case of SOS situations like accidents. It also has a roadside assistance option, which sends your information to the nearest available assistance team in case your car breaks down or runs out of fuel. You can also ensure efficient fuel usage through analytics delivered by the application. Finally, you get notified if you are driving too rash, and also receive some instant driving tips.

CarSense costs ₹ 6900 with one year's free subscription and warranty. After a year, the subscription fee will be ₹ 900 annually.

For easy reverse-parking, you can install the Bluetooth-powered **Autostark Full HD rear-view monitor**. Not only does it give you a clear picture of what's going on behind while you are reversing the car, it also plays your favourite movies, videos or audios when you are not driving. Bluetooth connectivity lets you control the device with your phone. Alternatively, there is a remote to do the same. The device has USB connectivity, allowing you to

watch your favourite media stored on a USB stick. Autostark Full HD monitor costs about ₹ 3000 on Amazon.in.

Imagine yourself on a long drive along a highway, when your car's tyre starts losing air. In such a situation, **Windek digital tyre inflator** can be a great companion. It is a compact (15.2x15.2cm<sup>2</sup>) portable device that comes with a charger and an air nozzle that can pump up the tyre at just the push of a button!

The charger wire fits to your car's charger. It is long enough to carry down to any of the tyres while staying in place at the charging port. After fitting the air nozzle into the car's tyre, you can set the desired air pressure using buttons on the device. The screen shows the amount of pressure to be set—select the measurement unit as desired (PSI, Bar or KPA).

Apart from that, the gadget also comes with an LED light that works in two modes: Normal mode to see things in dark environments and SOS mode to seek help during emergency. Windek digital tyre inflator costs about ₹ 1600.

Finally, if you want a complete wireless entertainment suite for your car, go for **Blaupunkt Cape Town 940 series** in-car entertainment system. Powered by Android operating system, it comes in a 17.3cm (6.8-inch) touchscreen form factor with 800x480 resolution. It accepts various data-sharing options including USB, SD Card, DVD, CD-ROM and VCD among others. Also, the system comes pre-installed with default media player software.

The device supports screen mirroring. It can be controlled with a remote or a smartphone via Bluetooth. It is Wi-Fi compatible too and can be controlled from the driver's seat. While driving, you can refer to the navigation map on the screen. The system also has FM tuner with equaliser option. It costs around ₹ 40,000. **EFY**
