that our customers benefit from the finest-quality energy-efficient light along with state-of-the-art connectivity," said Olivia Qiu, chief innovation officer, Philips Lighting.

Philips Lighting also intends to change company name to Signify while retaining the Philips brand for its products. The choice of the new company name originates from the fact that light has become an intelligent language, which connects and conveys meaning.

Thomson plans to re-enter Indian market

Technicolor SA owned consumer electronics brand Thomson is planning to make a comeback to India through the e-commerce market space. The brand will bring in the range of its smart televisions that will hit the Indian market this April. With over 120 years of legacy, the French corporation works with licencing partners world over. In India too, it will work under an exclusive licencing agreement with a local counterpart.

Thomson believes its smart TVs will make a great deal for smart consumers who are uncompromising, well-informed and like to place the best bet while comparing several options that are available online.

LG eyes India as its manufacturing hub

South Korean consumer electronics major LG expects India to become one of its global manufacturing hubs to cater to the South Asia, Africa, and the Middle East markets—according to a PTI report. Besides, LG Electronics India, which has manufacturing units in Noida and Pune, is also mulling to have a new unit in the next 4-5 years to cater to the fast-growing eastern-region market of the country.

LG Electronics India managing director Ki Wan Kim said: "We are checking the market demands. We are flexible to invest and increase the production capacity to meet that increased market demand besides India and exports as well."

The company will also continue to invest in its existing manufacturing facilities at Pune and Noida.
