LED TV

With inbuilt cinema zoom feature

Noble Skiodo launches 81.3cm (32-inch) HD-ready LED TV NB32R01 as a budget offering. Embedded with A+ grade pure prism panel, the TV adds life to visual characters and ensures integrity of deep and detail pictures with 16.7 million colours by eliminating ambient light reflection. A wide 178-degree view reduces colour distortion and delivers consistent colours from all angles.

The TV is armed with amplifiers to multiply the existing sound of the external system. It has a sound output of 10W x 10W, which results in audio clarity of even the smallest of acoustics. With inbuilt cinema zoom feature, the TV can zoom any picture to 100 per cent viewing size of the screen with no cuts.

Price
₹ 9999

The TV also comes with inbuilt games along with several connectivity options such as headphones and USB/HDMI ports to further explore external media devices. Its eco-smart feature automatically shuts off the TV when not in use.

Headset

With built-in Alexa

iBall adds freshness to its portfolio of headsets with the launch of iBall Decibel, which has Alexa built in. The headset brings high-quality audio performance at any volume, and actively works up to six hours of wireless listening at full volume. It comes with built-in FM radio and multiple playback options that include Bluetooth, aux and microSD slot for direct music playback. Users can simply tap MFB button to access hands-free voice control with Alexa on the smart headphone and get started by saying "Play songs from (movie)" or "Turn up the volume." From playing music to checking cricket scores, weather details, news and more, iBall Decibel smart headset gives them a convenient way of adding voice-control to their world.

Designed with premium material, iBall Decibel is comfortable for all-day wear. The over-ear style features an

acoustic headphone structure that delivers powerful low notes and eliminates the need for artificial bass boosting. Featuring a dedicated 40mm driver unit, the headset delivers a wide frequency range with balanced, powerful lows and extended highs.

Fitness band

Rugged and packed with a ton of features

MevoFit launches MevoFit Bold HR fitness band, which has been designed for sports and workout aficionados to consistently hone their fitness levels. The band has inbuilt optical sensors to monitor the heart rate 24/7, making it easy for users to maximise their workloads.

The activity tracker records fitness parameters such as steps taken, distance covered and calories burned, in addition to sleep timings, quality and associated patterns for analysis and recommendations. Inbuilt alarm helps users accomplish aggressive goals. They get alerts if they have been sedentary beyond a certain time. The band has a colourful display, and is dust- and swim-proof (IP-level 68). This makes it ideal for swimmers and athletes.
