

Smartphone printer

For printing high-quality photos instantly

Fujifilm India announces its instax SHARE smartphone printer SP-2, which can print high-quality, credit-card-sized instant photos in just 10 seconds. The printer enables users to print instant photos easily anywhere and anytime, via wireless LAN. SP-2 gives high-resolution prints having pixels of 800 x 600 dots and 320dpi to show detailed gradations and facial expressions of a full-length portrait, character or object clearly. Its laser exposure system enables faster printing with less noise and makes printing experience more enjoyable.

SP-2 comes with attractive filters and templates on instax SHARE app. Using Custom Filter, brightness, contrast and saturation of an image can be adjusted. With Collage template, two to four images can be combined into one instax photo. Whereas, with Split template, one image can be split into two instax photos.

Bluetooth speaker

Portable trolley speaker ideal for outdoor entertainment

Digitek announces trolley Bluetooth speaker DBS-200, especially meant for social gatherings, parties and outdoor entertainment. The 20.3cm (8-inch) woofer-sized device is equipped with 400W PMPO and can be connected with two speakers at a time. It can be paired with Bluetooth-enabled devices within a range of 10 metres.

Users can enjoy karaoke with the included mic, listen to FM radio or play mp3 music by connecting music sources to the USB port or by using TF/SD cards. The speaker has an inbuilt 3000mAh rechargeable lithium battery. Aux input can be used to connect to other devices to amplify sound and polish its quality.

MicroSD card

Aimed at video and VR/AR creators

SanDisk Extreme microSDXC UHS-1 card comes with a capacity of 400GB, and provides extreme speeds for transferring data. Its A2 rating makes it ideal for Android smartphones, drones and action cameras.

Price
₹ 22,000

The high-performance microSD card handles 4K UHD video recording, full-HD videos and high-resolution photos. The super-fast memory card can read up to 160MBps and can write up to 90MBps.
