

allow anytime video access to users. Many vendors offer multiple cameras configurable through a single account using a mobile application.

Market choices

Listed below are some of the many options of Wi-Fi security cameras that come with cloud storage.

D-Link DCS-P6000LH. This mini camera is a great example of a plug-and-play device. The compact Wi-Fi security camera can record 720p videos with a 120-degree FOV. Night-vision mode allows viewing up to five metres.

myDLink app allows remote real-time video viewing. It features two-way audio support, motion and sound detection and alert systems. Videos can be stored on the phone or in D-Link's cloud. Bluetooth connectivity and Alexa-control is supported too. The camera is available at a starting price of ₹ 2499.

SmileDrive Twins. This is an interesting offering by SmileDrive, which houses two camera lenses in one body, giving full 720-degree coverage. Both cameras can record up to full-HD (1080p) resolution videos. The Wi-Fi-driven camera supports SD card storage (up to 128GB) as well as cloud storage (paid subscription basis).

The cloud can be accessed using a proprietary mobile application, which can be used to configure the camera and view video feeds in real time. The product supports night vision and has motion detectors. It is available for ₹ 3999.

D3D wireless HD camera. D3D provides a reasonable Wi-Fi security camera, which records 720p resolution videos.

It supports night vision and mobile-based control. The application allows users to manually rotate the camera across 360 degrees. It has two-way audio support, motion sensing and

real-time notification capabilities. Recordings can be stored on an SD card, or be retrieved from D3D's FTP cloud server. It can be availed for ₹ 2999 on various online stores.

Yi 1080p home camera. Yi's cloud-enabled wireless camera is a popular choice for indoor monitoring. It can record videos up to 1080p resolution.

It has a 112-degree FOV and image distortion correction feature. It supports night vision up to nine metres, and comes with motion detectors.

Data can be stored on memory cards (up to 32GB) or on Yi cloud.

The mobile application facilitates two-way video communication. Its baby monitor has baby crying detection feature. The camera is available on Yi website at a starting price tag of US\$ 69 (₹ 5005 approximately).

There are many more options available from different vendors that can be explored. While making a purchase, make sure the dealer is offering a reasonable warranty period, too. **EFY**
