NFAP's spectrum identification to benefit telecom industry: COAI

Telecom industry body Cellular Operators Association of India (COAI) has said that spectrum identification under National Frequency Allocation Plan (NFAP) will benefit the telecom industry in delivering mobile broadband for all.

NFAP lists usage of all spectrum bands in India by several users and services. The plan is likely to provide the much-needed roadmap for the development of digital communications industry in the country.

NFAP was announced by the government at India Mobile Congress 2018 in New Delhi.

SECI raises ceiling tariffs to attract solar developers

Solar Energy Corp. of India (SECI) has increased ceiling tariffs for two of its innovative tenders from ₹ 2.75 to ₹ 2.85 per unit to attract solar developers towards fresh bids for hybrid projects, that is, wind and solar power generation, at the same site. The move has come amidst concerns regarding low response from solar power bidders to set up projects due to low tariffs.

An official from Ministry of New and Renewable Energy (MNRE) said that the department had decided to raise the ceiling price considering interest rates and other factors. The ministry hopes to draw developers' interests in these hybrid projects.

RenewSys to invest US\$ 25 million, expand capacity

RenewSys, the renewable energy arm of Enpee Group, is planning an investment of US\$ 25 million as part of its expansion plan. The Mumbai-based manufacturer of integrated solar products is planning to enhance its solar panel capacity from current 300MW to 1.5GW by 2019 end.

The company will increase the solar panel capacity of its Hyderabad facility from 300MW to
