GE personal security alarm kit

GE's smart security system includes three window alarms and one luxury door alarm. Its 120-decibel alarm alerts you to any potential intrusions.

iSmartAlarm iSA3

Compatible with all iOS devices, this smart security system with camera sends you alerts via e-mail and texts without any additional costs. Using wireless sensors, it is perfect for wireless monitoring.

Honeywell's Glass-break detector (Source: <https://i.ytimg.com>)

Honeywell 5853

Honeywell's 5853 Glass-break detector alerts you if any glass in the house is broken or tampered with by an unidentified person or through any other means. It has a range of up to 7.6m (25 feet) and a battery lasting about ten years.

You may use these systems stand alone or in combination as per your requirements. Most of these systems can be integrated with other systems to get the desired results. **EPY**

D-Link wireless day/night HD outdoor network surveillance camera (Source: <https://i.ytimg.com>)

D-Link wireless surveillance camera

Monitoring suspicious movements outside the house is also important to prevent robberies. D-link's wireless HD outdoor surveillance camera is just perfect for external monitoring since it is specially designed to withstand all kinds of weather changes and enables users to view the feed from anywhere.
