

sensor. It can support dual SIM, 4G and VoLTE. The internal storage is 32GB, which can be expanded up to 128GB through an additional slot. The phone comes with a powerful 4000mAh battery. It packs Android Nougat, upgradable to Oreo, and has Microsoft Office tools pre-installed!

Panasonic Eluga Ray 700. This model from the Eluga series has 3GB RAM and 1.3GHz Mediatek MTK6753 octa-core processor. It has an impressive battery capacity of 5000mAh. The dual-SIM phone also has a dedicated slot for expanding the internal storage up to 128GB. Internal storage is 32GB. The 14cm (5.5-inch) Full HD screen is

based on IPS technology. Both front and rear cameras are 13MP. The phone supports VoLTE and Panasonic's own AI assistant Arbo. Ray 700 costs ₹ 9999.

Xiaomi Redmi Note 4. This model was one of the best-sellers of 2017. Its starting price is ₹ 9999. The phone packs a strong Snapdragon 625 octa-core 2GHz processor with Adreno 506 GPU, 14cm screen with Full HD resolution and powerful 4100mAh battery. The base model packs 2GB RAM and 32GB internal storage. The phone has a dedicated SIM slot and another hybrid slot, which can either hold another SIM or a microSD card

up to 128GB. In addition, it has 13MP rear camera, 5MP front camera and fingerprint sensor.

10.or E. Huaqin Technologies made a surprise entry into the Indian mobile market with its 10.or series via Amazon.in. Priced at ₹ 7999, 10.or E is an Android Nougat smartphone with 14cm Full HD IPS screen and fingerprint sensor. It includes 3GB RAM, 1.4GHz Qualcomm Snapdragon 430 octa-core processor and 4000mAh battery. Internal storage is 32GB, which is expandable up to 128GB with an additional microSD slot. The dual 4G SIM slot supports VoLTE.

Moto C Plus. A more economical option, Moto C Plus was released in June last year. Priced at ₹ 6999, this phone packs 2GB RAM and 1.3GHz 64-bit quad-core Mediatek MT6737 processor. It has an internal memory of 16GB with a slot for expansion up to 32GB. The 4000mAh battery can last up to 30 hours of usage. The screen has HD resolution. There are two SIM slots: The primary SIM supports 4G and VoLTE, while the secondary SIM can only run on 2G.

Redmi 5A. Xiaomi again makes to the list because of this budget smartphone costing ₹ 5999. The 12.7cm HD phone packs Qualcomm Snapdragon 425 processor, 3GB RAM, 32GB internal storage and 3000mAh battery. It also solves the problem of Redmi Note 4's hybrid slot by allowing dual-SIM along with a separate microSD slot. The storage is expandable up to 128GB. SIMs support 4G and VoLTE as well. The phone packs a decent 13MP rear camera and a 5MP front camera.

Apart from these models, there are many options from various other brands as well. Try to explore most of them before you buy! **BY**
