Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
SEMICON Taiwan, 2018 Taipei, Taiwan September 12-14, 2018	Premier event in Taiwan for microelectronics manufacturing	Website: www.semicon.taiwan.org/en
TAITRONICS Oct. 9-12, 2018 Taipei Nangang Exhibition Center	International electronics show	Website: https://www.taitronics.tw
Open Source India October 11-13, 2018 Bengaluru	Platform for the open source community to share what's new and exciting in open source languages, tools and techniques	Website: https://opensourceindia.in/osidays
GITEX October 14-18, 2018 Dubai World Trade Centre	Showcase of the world's most advanced technologies	Website: https://www.gitex.com/
electronica Munich Nov. 13-16, 2018 Munich, Germany	International trade fair for electronic components, systems and applications	Website: www.electronica.de

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

Snippets

Raksha Mantri visits BEL

Raksha Mantri Nirmla Sitharaman made her maiden visit to the Bangalore Complex of Navarna Defence PSU Bharat Electronics Ltd (BEL) and had a first-hand glimpse of the facilities there. She also had detailed discussions with the BEL management on their ongoing and futuristic projects.

Google plans physical stores in India to up Pixel sales

Google plans to open brick-and-mortar stores in India to increase sales of its Pixel smartphones. Apparently, India is one of the world's fastest-growing smartphone markets where the tech giant is lagging behind competition. According to an *Economic Times* report, the company has hired a senior Apple executive as part of this plan. It is said to have been encouraged by the response to more than a dozen pop-up stores opened recently in malls across India to showcase Pixel 2 phones and educate consumers on its features.

TUV Rheinland extends accreditation and FCC approvals

TUV Rheinland India has become the first inspection, testing and certification (TIC) laboratory in India to receive A2LA accreditation and be listed by the US Federal Communications Commission (FCC) to perform EMI, EMC and wireless testing and certification locally according to North American market standards. TUV Rheinland's EMC laboratories in Guangzhou

Raksha Mantri Nirmla Sitharaman being briefed about the latest AESA-based Atulya radar at the Military Radar and Missile Systems outdoor test facility of BEL-Bangalore by BEL CMD M.V. Gowtama

and Shanghai have also received A2LA accreditation and FCC approval.

Arrow Electronics to acquire eInfochips

US-based Arrow Electronics is acquiring eInfochips, a Gujarat-based product engineering and software R&D services company, for ₹ 18 billion, according to an *Economic Times* report. As a part of the pay-out, about 350 employees of the Ahmedabad-based company would get ten million rupees each for their ESOP holdings.

Hero Future front-runner in race for Orange Renewable

Munjal family-promoted Hero Future Energies has emerged as the front-runner to acquire Orange Renewable from Singapore-based AT Capital Group. New Delhi-based Orange Renewable, a unit of AT Holdings, is among India's largest renewable energy platforms with an operational capacity of 758 megawatt (MW), made up of 567MW of wind projects and 191MW of solar plants.

Alexa will initially be available in the US via an update through Acer Care Center, while wider support is expected in mid-2018.

Enabled by Intel Smart Sound Technology, an integrated audio digital signal processor (DSP) built to handle audio, voice and speech interactions, Acer's latest notebooks and desktops supporting Amazon Alexa will respond to voice commands quickly while offering high-fidelity audio without impacting system performance.

With Amazon Alexa, users can get more done by asking Alexa to check their calendar, create lists and answer questions; play their favourite music, podcasts or audiobooks; and manage smart home devices by controlling lights, thermostats and home appliances.

Digicomp 2018 concludes successfully

Indian Chamber of Commerce (ICC), under the aegis of Ministry of IT & Electronics, government of India, with support from premier industry body IESA recently organised *Digicomp 2018*—a two-day conference and exhibition on computer hardware and design-led manufacturing (ESDM) products manufacturing in India.

Speaking at the event, Sanjay Kr Rakesh, joint secretary, Ministry of Electronics and Information Technology, mentioned, "The government of India is now encouraging each individual State to come up with more conducive industrial policies to attract private investment in the ESDM sector. States like Andhra Pradesh and Karnataka have really flourished in this respect, although response from Eastern and North-Eastern States has been relatively lagged in this respect."

Devender Singh, principal secretary, Department of Electronics & Information Technology, government of Haryana, highlighted factors like Haryana's strategic location, connectivity through industrial corridors and existence of a well-designed GST regime that can add great value to the profitability factor of any private investor in the ESDM sector.
