

Conferences & Workshops at IEW 2018

Title	Type	Primary Audience	Take-away	Date	Hall	Questions That Will Be Answered Here	Topics	ENTRY
Profit From IOT System Integrators of IOT Solutions	Business Conference	Sr Business Decision Makers from System Integration Organisations	Be able to finalise Strategies and action plan to grow business faster	8th Feb, 2018 (Thursday)	Bhabha	- What are the opportunities emerging globally and in India? What are the challenges? - What are the new business models emerging for SIs in the IIOT landscape? How's the game changing? - Who are the key IIOT players seeking system integrators? - What are the typical business challenges and how have those been overcome? - How's the IIOT tech stack evolving to make it easier for SIs to deploy solutions?		Single Day Pass (Any 1 Day) OR Business Pass (All 3 Days) OR PRO Pass (All 3 Days + 70% discount on Workshops)
Profit From IOT Retail Sector	Business Conference	Sr Business Decision Makers from Retail Sector (End Customers)	How IoT can help reduce costs, improve efficiency and increase revenues for Retail Sector	9th Feb, 2018 (Friday)	Bhabha	- How's IOT benefiting retail sector across the globe and in India? - What are the opportunities and business benefits presented by IOT for retail? - What are the new technologies that are enabling innovative IOT solutions for retail? - What are the typical business challenges and how have those been overcome?		Single Day Pass (Any 1 Day) OR Business Pass (All 3 Days) OR PRO Pass (All 3 Days + 70% discount on Workshops)
ACQUIRE	Tech Track (IOT)	Developers working on the ACQUISITION (typically hardware) side of IOT Solutions	Be able to develop ACQUIRE solutions - better, faster and cheaper	7th Feb, 2018 (Wednesday)	Sarabhai	- What are the key tech trends defining IOT devices and their Acquisition capabilities? - What are the latest technologies, platforms and hardware available to develop solutions faster, better and cheaper? - What are the engineering challenges in developing solutions that ACQUIRE, and how have they been overcome successfully?	Sensors, Development Boards, Communication Chips, Processors, EDA, Interfaces, Standards, Security, etc.	Single Day Pass (Any 1 Day) OR PRO Pass (All 3 Days + 70% discount on Workshops)
ANALYSE	Tech Track (IOT)	Developers working on the ANALYTICAL side of IOT Solutions	Be able to develop ANALYTICAL solutions - better, faster and cheaper	8th Feb, 2018 (Thursday)	Sarabhai	- What are the key tech trends defining IOT devices and their ANALYTICAL capabilities? - What are the latest technologies and platforms available to develop solutions faster, better and cheaper? - What are the engineering challenges in developing solutions that ANALYSE, and how have they been overcome successfully? - What are the latest solutions for developers being offered by leading vendors? Any innovative solutions	Analytical Tools, Analytics As A Service, Cloud, Artificial Intelligence, Deep Learning, Machine Learning, etc	Single Day Pass (Any 1 Day) OR PRO Pass (All 3 Days + 70% discount on Workshops)
INTEGRATE	Tech Track (IOT)	Techies working on INTEGRATING a complete IOT solution	Be able to INTEGRATE solutions - better, faster and cheaper	9th Feb, 2018 (Friday)	Sarabhai	- What are the key tech trends defining IOT devices and their ANALYTICAL capabilities? - What are the latest technologies and platforms available to develop solutions faster, better and cheaper? - What are the engineering challenges in developing solutions that INTEGRATE, and how have they been overcome successfully? - What are the latest solutions for developers being offered by leading vendors? Any innovative solutions	Analytical Tools, Analytics As A Service, Cloud, Artificial Intelligence, Deep Learning, Machine Learning, etc	Single Day Pass (Any 1 Day) OR PRO Pass (All 3 Days + 70% discount on Workshops)
Harnessing the Strength of the Blockchain	Tech Track	Tech decision makers and creators of tech solutions	Discover Blockchain, its applications, and how to implement it	7th Feb, 2018 (Wednesday)	Kalaam	- What's blockchain and why is it a great enabler? - What types of applications can benefit from Blockchain? Which one's can't? - Success Stories of applications that have benefited from Blockchain, and learnings from their experience - What are the tools, platforms and technologies available to implement Blockchain? - How to start the ball rolling?	Blockchain, Bitcoin, IOT, IIOT, Security, Retail-IOT, etc	Single Day Pass (Any 1 Day) OR PRO Pass (All 3 Days + 70% discount on Workshops)
