Design Services

VLSI - ASIC & FPGA

- Architecture
- RTL Design & Verification
- Synthesis Timing Closure
- FPGA

Embedded Software

- Low level firmware
- OS & Board Support Package
- Middleware & Algorithms
- Applications

Mobility & Cloud

- Mobile Applications
- UI Development
- Cloud Solutions
- Desktop Applications

System Design

- System Architecture
- HW-SW Partitioning
- HW selection
- Product Design & Development

Domains

Automotive

Industrial

Healthcare

Consumer

Solution/Technology Focus

- ☒ **Multimedia**
 - IP development
 - AV codec porting
 - Frameworks
- ☒ **Machine Learning**
 - Development of algorithm
 - Porting & optimization
- ☒ **Custom solutions using deep learning**

Multimedia/Machine Learning

- ☒ **IoT Edge**
 - Sensor Integration
 - Sensor Fusion
 - Device Connectivity
- ☒ **IoT Cloud**
 - Edge Device Integration
 - Mobility Applications
- ☒ **Real Time Location Solution (UWB)**
