Precision timing makes the difference

We've been providing world-leading service for over 25 years

Golledge

Golledge Electronics

Success requires precision timing. Every time.

- Over 25 years of frequency expertise
- Highly competitive pricing
- One of the world's widest ranges of available SAW filters and resonators
- Phase noise as low as -175dBc/Hz @ 1MHz within miniature surface mount packages
- High precision with temperature stabilities down to <1ppb peak-to-peak
- Free samples for registered projects
- Custom specifications available

V5 Semiconductors
