

Daiewa L42FVC4U

production, while VA panels do provide higher contrasts, their response time is much slower. Hence, IPS screens are preferable. Screen size of 102cm (40 inches) is a good deal within budget.

More ports. Go for a TV that offers you maximum number of connectivity ports—including USB, HDMI, audio/video and VGA. Generally, TVs come with two HDMI and two USB ports along with a few other ports. Go for one that is offering more. For a TV supporting USB drives, ensure that it can play videos from hard disk drives or pen drives.

In addition, look for a smart remote. Bajaj explains, "A smart remote with built-in mouse controls makes it hassle free to operate, while HDMI/USB ports ensure better connectivity."

Connectivity, processing and other smart features. Agarwal say, "A smart TV should have a high-speed processor so that it can run online videos smoothly on the screen while maintaining the resolution. The TV should also be equipped with relevant apps and adequate connectivity options along with HDMI and LAN ports."

Ensure that the smart TV has Wi-Fi support or Ethernet port so that it can be connected to the Internet. Here again, more than one port would be an advantage. Look for pre-installed browsers and applications. A smart TV having at least 1GB random-access memory (RAM) and 4GB read-only memory (ROM) will give you seamless performance.

Options in the market

The good news is that smart TV prices are falling with market entry of more players. This is giving buyers a bigger roster to choose from. Here are a few examples.

Daiewa L42FVC4U. Daiewa's newly launched smart TV packs a 102cm FHD LED-backlit display, 60Hz refresh rate, 6.5-millisecond response time and two speakers with total 20W output. Its internal configuration includes a dual-core, 1.3GHz Cortex A7 processor, 1GB RAM and an impressive 8GB ROM. Connectivity options include two HDMI ports, two USB 2.0 ports, one AV port, one Ethernet cable port and built-in Wi-Fi. The TV consumes 78W electricity. It is affordably priced at ₹ 23,490 online and comes with a one-year warranty.

Mitsubishi MiDE040v03 FS. Mitsubishi's 102cm LED smart TV comes with a strong 4K display resolution, static contrast ratio of 5000:1 and refresh rate of 60Hz. It packs a MaliT720 dual-core 1.35GHz processor, 1GB RAM, 8GB NAND storage, in-built Wi-Fi, two USB and HDMI ports. Its two speakers output a total of 30W. The TV consumes 75W power. It is priced at about ₹ 30,000 and comes with three-year warranty.

Micromax Bingbox. Micromax has introduced Bingbox series of smart TVs, among which 81cm (32-inch) LED iteration is a cost-effective recommendation. This HD LED TV has a speaker output of 20W. Connectivity options include built-in Wi-Fi, LAN port, HDMI port and VGA ports. The TV is powered by a strong processor and comes with a plethora of pre-installed applications like Opera TV, YouTube, Eros Now, Hungama Play and PC Cast. It costs about ₹ 21,000. Its 109cm (43-inch) iteration costs over ₹ 30,000.

Onida 43FIS. Onida's 109cm FHD LED TV has 16W speaker output. The display has 60Hz refresh rate and contrast ratio of 3000:1. Apart from inbuilt Wi-Fi, it sports three HDMI ports and three USB ports, which is an advantage. The TV consumes 90W power and costs ₹ 30,000.

Kodak 40FHDXSMART. Kodak's Wi-Fi-enabled TV has a 102cm screen with FHD resolution and 60Hz refresh rate. It packs a quad-core ARM Cortex A7 1.5GHz processor, 20W speaker output, and two HDMI and two USB ports. The TV comes with one-year warranty. It is priced at ₹ 24,000. **EFY**
