RCD tester

Kyoritsu's 5410 RCD tester measures trip time and trip-out current at different ranges. Its constant-current-source circuitry ensures that a fluctuating mains voltage does not affect the reading accuracy. The device tests rated residual non-operating current in $x\frac{1}{2}$ range, measuring RCD trip time in $x1$ and $x5$ ranges. Its key features are auto ramp test, constant voltage measurement in standby mode at each range, remote test, and 0- and 180-degree phase-angle switch (which

permits quick tests and consistent readings). Testing time is 200 to 2000ms.

Digital multimeter

Kusam-Meco has introduced a $3\frac{1}{2}$ -digit, 1999-count digital multimeter with terminal blocking system. KM-6030 features precise design, convenient operation, high performance and multifunction. It has a large LCD (28mm). To avoid improper connection operation, the current terminal sockets are blocked by a mechanical protection device when the range switches in V, Ω or Hz function. It is equipped with PTC and vice versa element at the input terminal, which provides efficient protection for many functions.

The multimeter not only measures AC/DC voltage, AC/DC current, resistance, capacitance, frequency and temper-

ature but is also capable of transistor hFE test, diode test and data hold function.

TOOLS & EQUIPMENT

Software reference design

NI has announced MAC layer support for its LabVIEW Communications 802.11 Application Framework, allowing wireless researchers to go beyond the PHY layer to address complex network-level problems that must be solved to make the 5G vision a reality. Wireless researchers can pair the 802.11 Application Framework with NI software-defined radio hardware to rapidly conduct network-level, real-time, over-the-air prototyping experiments for a wide range of Wi-Fi and 5G MAC/PHY research.

KORE KEY OPERATION & ELECTROCOMPONENTS PVT. LTD.

Total LED Lighting Solutions

AN ISO 9001:2008 CERTIFIED COMPANY

LED Flood Light Fixtures
10W/20W/50W/
100W/150W/180W

LED High Bay Light Fixtures
50W/120W/
150W/180W

PHILIPS DRIVER
9W, 10W, 12W, 20W

- LEDs: High watt, SMD etc.
- LED BULBS-MR16, B22, GU10, E27.
- LED Downlights / Fixtures.

- LED Modules, Rigid Strip, Strip Light.
- Modules for Street Lights & Bulbs.
- LED Street Lights/Bay Lights & Flood Light Fixtures.

- Wide range of Complete T8 / T5 LED Tube lights.
- Complete solutions of LED Bulbs ranging from 5W/7W/9W.
- Customised in different Color Temperatures as per requirement.
