Smart TVs

Next-level viewing experience

iFALCON 55K2A, the flagship offering from iFALCON, is a 4K UHD TV that features 3840 x 2160 pixels. It is also equipped with Micro Dimming technology and features like white LED HD backlight, which drastically enhances the colour gamut and provides more dynamic colour contrast. Dolby 5.1 surround sound and advanced DTS post-processing technology ensure sound quality rivalling a top-of-the-range stereo system.

Powered by Android 7.0 Nougat, iFALCON 55K2A offers features such as task switching, picture-in-picture and in-built Google Chromecast support. The smart TV is powered by a powerful quad-core CPU and dual-core GPU, and has 2.56GB RAM and 16GB internal storage. While a 2.4GHz + 5GHz dual-band Wi-Fi enables seamless online streaming, iFALCON 55K2A minimises power consumption.

iFALCON F2 also comes with Dolby decoder and supports a variety of audio and video formats, including the latest coding system, from the antenna to the USB and other input channels such as H.264/MPEG4/MKV/AVI/MP4 video coding. Equipped with comprehensive safety features such as lightning protection, fast heat ventilation and wide voltage range, the smart TV consumes significantly lower power and is moisture-proof.

Smart Wi-Fi router

Wireless coverage for larger homes

NETGEAR introduces R6260 dual-band smart Wi-Fi router in India. NETGEAR R6260 comes with a dual-core 880MHz processor, which enables combined Wi-Fi connections at Gigabit speeds of up to 1600Mbps, providing enough wireless coverage for larger homes. The dual-band smart router is compatible with next-generation Wi-Fi devices and with 802.11 a/b/g/n devices.

With up to 300 + 1300Mbps speed and simultaneous dual-band Wi-Fi technology, the router avoids wireless interference, ensuring top speed and reliable connections. The device is ideal for applications such as lag-free multiple video streaming, multi-player gaming, ultra-fast speed, and a secure and reliable connection to the Internet. For safe Internet browsing, R6260 provides features like parental control to manage Web filtering, separate and secure access for guests, high-level wireless security with WPA/WPA2 and customised free URL to create an FTP server.

Gaming keyboard

Spill-resistant design

Rapoo has unveiled VPRO V52S backlit gaming keyboard in India. V52S features a colourful backlit system for a better visual experience for gamers. Media control is possible with the help of keys that allow access to a variety of functions like media player, homepage and volume adjustment. A tactile feel similar to blue switches is a key feature of Rapoo VPRO V52S. This helps gamers experience an excellent typing experience. Also, the anti-ghosting design allows eSports players to simultaneously press 25 keys on the game zone, ensuring rapid and exact registration and execution of every command.

The LED backlight brightness can be adjusted in V52S with the adjustable backlight feature, making weapon fighting even more fun. Also, the spill-resistant keyboard design takes away the worry regarding the keyboard malfunctioning due to accidental spills.
