

AHEAD OF WHAT'S POSSIBLE™

**BREAKTHROUGH PHASED
ARRAY TECHNOLOGY
SIMPLIFIES SYSTEM DESIGN.**

ADI's new integrated Phased Array technology enables you to create smaller, lighter radar and communication systems. From CMOS to GaN, from stand-alone functions to integrated solutions, our industry-leading portfolio of RF and microwave components provides system design flexibility and gets your innovations to market more quickly than ever before.

SMALLER. LIGHTER. FASTER. THE WAY OF THE NEW PHASED ARRAY.
