Chinese electronics consumer durables major, Haier Group, plans to invest more than ₹ 32 billion in a greenfield manufacturing plant in Noida. *Business Standard* reported that the new plant would manufacture electronic and home appliances, which the company currently sources for India market from Qingdao, China.

A seven-member team led by Haier Appliances (India) president, Eric Braganza, met UP industries minister Satish Mahana regarding this project. The new plant is expected to provide employment to 4300 people.

Karnataka is top solar state in India with 5GW in cumulative installed capacity

Karnataka's solar photovoltaic (PV) capacity crossed the 5GW mark in the first quarter of 2018 to transform it into India's top solar PV state.

So far in 2018, Karnataka has maintained its brisk pace of solar project commissioning. In 2017, the state installed over 2GW of solar PV capacity. In the first three months of 2018 alone, the state matched that annual total with the installation of over 2GW of solar PV projects.

The development comes two years after Mercom's India Solar Project Tracker found that in 2016, Karnataka had the country's largest project pipeline, boasting 3.4GW of projects in various stages of development.
