India Electronics Week (IEW) 2018, one of the largest global events that promotes the Indian electronics industry, kick-started on 7th February at the Karnataka Trade Promotion Organization (KTPO). The event was supported by the Ministry of Electronics and Information Technology (MeitY).

The inaugural session was opened by Ramesh Chopra, founder and chairman, EFY Group. He extended his warm welcome to all dignitaries at the IEW 2018 and said, "The world is moving very fast, and many of us are finding it difficult to keep pace with it. At IEW this year our focus will be on the Internet of Things. IoT is a vast field which tends to connect the entire world besides human beings. There are great expectations from IoT. We have gathered here today to see how best we can make use of this technology."

The opening ceremony was marked by the IoT CEO Summit. The topic of the panel discussion was, 'Disruptive technologies:
