THAKOR ELECTRONICS LIMITED

Metal Glazed Resistors (MGR)

Provide high stable performance against environmental conditions & overload voltages.

Wire Wound Resistors (WWR)

Small dimension, excellent stability in high temperature, resistant to humidity and comparatively than other kind of resistor. Fabricated using a suitable fiberglass or ceramic core with resistance wire securely crimped to the terminals. Precise resistance value with better life proof. Super heat dissipation, small linear temperature coefficient. Instant over load capability, low noise figure and without annual shift on resistance value.
