

Share Your Knowledge

If you are an expert in your field of electronics, why not share your knowledge with the world?

Electronics For You invites electronics professionals and industry experts to write articles on their area of expertise and interest from different perspectives

Some of the topics we want you to write about are:

- Photonics: Optics & Optoelectronics
- Automation
- Power Electronics
- Components
- Telecom

So if you have an interesting topic or original article to share, please let us know at efyeditorial@efy.in

We would love to hear your good ideas too!

IP CCTV Dome Camera

Featuring PoE, audio and microSD slot

DIGISOL Systems' new dome IP CCTV camera with 5MP resolution is ideal for home and office surveillance. DG-SC6502SA offers the latest compression technology (H.264/H.265) with a CMOS sensor and a real-time image processing hardware. It can be recessed easily into suspended ceilings or wall-mounted without the need for additional mounting brackets. Support for Power over Ethernet helps in easy installation by eliminating the

Siemens introduces diagnostic platform for chronic diseases

Siemens Healthineers India has partnered with startup medical technology company Jana Care for its Aina blood monitoring system—a smartphone-based diagnostic system for detection and management of chronic diseases. Aina offers a broad range of tests such as HbA1c, glucose, haemoglobin and lipid profile on a single platform covering immunoassay, enzymatic or chemical affinity. It is available in two configurations: smartphone-based device and tablet-based portable lab system. When connected to a smartphone, it enables the smartphone to act like a diagnostic testing device, providing results at the point of care.

Microsoft supports e-mail addresses in Indian languages

Microsoft has announced support for e-mail addresses in 15 Indian languages across its email apps and services, including Office 365, Outlook 2016, Outlook.com, Exchange Online and Exchange

Online Protection (EOP). It will also allow users to now seamlessly send/receive mails to/from local-language email addresses via Outlook client on PCs, outlook.com in addition to Outlook apps for Android and iOS. The languages being introduced are those that support Unicode—an international encoding standard for use with different languages and scripts.

WhatsApp adds group description feature

Messaging app WhatsApp is rolling out 'Add group description' tab for its Android and Windows Phone beta versions. Placement of the tab in a group will depend on whether the viewer is part of the group or not. Any member in the group can reportedly edit the text in the new group description tab, although WhatsApp might be looking to restrict access to admins in future updates. Available on WhatsApp beta version 2.18.54 on Android and WhatsApp beta version 2.18.28 on Windows Phone, the group description feature has a 500-character limit and has possibly been incorporated to help new members get a brief sense of a group's purpose and activities before joining it.
