

AC/DC Converters designed for IoT applications

- 1W-20W converter with either pins or wires for versatile installation options
- Low no load power consumption (as low as 30mW)
- Ultra-compact, low profile with 3.75kVAC Isolation (Class II)
- Wide operating temperature from -40°C up to +85°C
- Wide input voltage range: 80 ~ 305VAC
- Full household and industrial safety certifications IEC/EN-60335-1, EN/UL-60950-1 & 62368-1
- EN-50155 and EN-55024 (Class B) certified
- Fully protected outputs (short-circuit, overvoltage and overload)
