

SUSPENSE

Are You In Suspense?

Are you wondering what happened to your order or payment, even after a fortnight? But did you mention your name and address clearly while sending payment, and what the payment was for?

We get several payments every month without adequate instructions or even identity of the person sending the payment. As a result we are unable to take appropriate action on these, till we get a complaint - if at all.

At EFY, we want you to be our satisfied customer. So please do let us know in case your payment or instructions are not even acknowledged within a fortnight. We are not that lazy!

Earphones

Immersive music experience with active noise cancellation

Samsung has introduced Level In ANC earphones, featuring powerful active noise cancellation (ANC). The stylish and compact earphones come with metal finish and provide an immersive music experience for consumers.

Level In ANC picks up external noises with two external microphones, analyses these and creates inverted sound waves to cancel out those noises, reducing the noise going into your ears. The ANC of Level In ANC is up to 90 per cent effective, reducing outside sounds

by up to 20dB. This means you can enjoy crystal-clear sound, without the distraction of exterior noise. The two-way speakers combine to give you clear and balanced sound across the entire sound spectrum, from low to high ranges.

GizMo ByTes

Orkut launches Hello app in India

Orkut Buyukkoken, creator of the once-popular social network *Orkut.com*, has launched Hello app in India. The social networking app connects you with communities of people who share your interests, around the world and in your neighbourhood. It gives you the opportunity to make new friends when you join communities from over 1000+ various interests, meet people who love what you do and discover interesting things that people are sharing.

Otter, a smart note-taking, collaboration app

Otter empowers you to remember, search and share your voice conversations. The app functions as a voice recorder for events such as team meetings at work, and generates notes from voice recordings. It then lets you customise the notes for further organisation.

Google's URL-shortening service shuts down

Google is shutting down its URL-shortening service, *goo.gl*. As of April 13, 2018, new and anonymous users will not be able to create links through *goo.gl* console, but existing users will be able to use it for another year, after which it will be discontinued completely. The company is replacing it with firebase dynamic links (FDLs), which are smart URLs that allow one to send existing and potential users to any location within an iOS, Android or Web app.

Lift Storage, a minimal workout app

Lift Storage generates a personalised workout schedule for you that automatically updates based on your progress at the gym. The personalised workout schedules are based around squats, bench presses, dead-lifts, rows and overhead presses. The app automatically adjusts weights, scheduling and lifts without your input, and helps ensure you keep getting stronger and filter, week after week, month after month.

The prices, features and specifications are based on information provided to us, or as available on various websites and portals. EFY cannot vouch for their accuracy.
